

# Muhammad Abdullah

Aspiring Generative & Agentic AI Developer

Faisalabad Punjab Pakistan  
+92324-7162629  
abdullahgenai12@gmail.com

## EXPERIENCE

Although I do not yet have formal industry experience, I have built a strong foundation in AI through self-learning, practical projects, and continuous training.

I have worked on applications involving Machine Learning, Deep Learning, NLP, LangChain, and RAG systems, which improved my problem-solving skills, logical thinking, and ability to work in teams.

I am highly motivated to apply this knowledge in a professional software house environment, contribute to real-world AI solutions, and keep growing as a developer.

## EDUCATION

### Matric

Govt Islamia High School, Faisalabad  
2019 – 2021

### Digital Literacy

Akhuwat First School, Faisalabad  
Completed in 2024

### Artificial Intelligence (Ongoing)

Self-paced Online Learning

- Learning AI fundamentals including Python, Machine Learning, and Automation.

## PROJECTS

- **Churn Modeling** – Predicted customer churn using ML models.
- **LangChain Expression Language** – Implemented AI-powered pipelines with LLMs.
- **ANN Model Building** – Created artificial neural network models for predictions.
- **NLP Applications** – Built text classification and chatbot systems.
- **Deep Learning** – Developed CNN/RNN models for different datasets.
- **Machine Learning** – Supervised & unsupervised learning projects.
- **SQL Database** – Managed structured data and integrated with ML workflows.
- **RAG (Retrieval-Augmented Generation)** – Combined knowledge bases with LLMs.
- **Building AI Chatbots** – Designed and developed simple conversational AI chatbots using NLP techniques and Python frameworks.

## SKILLS

- I have that much skills  
That this paper is less to fulfill my skill set.

## Certifications

### Building AI Browser Agents

DeepLearning.AI

Issued Aug 2025

Skills: Agentic AI, Data Analysis, Data Science.

### DigitalLiteracyCertificate—

Akhuwat First School Faisalabad

Completed 2024

Skills: Computer Basics, Internet Tools, MS Office, Canva, Fiver.

### AI Fundamentals (Ongoing) —

Self-paced Online Learning Learning AI concepts including Python, Machine Learning, and Automation.

## LANGUAGES

Urdu — Native / Excellent

While i can also manage with english as well
